

MY MEIPING VASE

The Burrell Collection is home to several Meiping vases, which are rare and beautiful pieces of pottery from China.

They are nearly 700 years old.

These designs are often blue on white, but this isn't always the case.

The word 'Meiping' comes from the Chinese word for 'plum', as the vases often have paintings of plum blossom on them.

Here's a blank vase for you to decorate.

You can take inspiration from the vases in our collection, or you can come up with a completely new design of your own!

Don't forget to make a label for your artwork
